

Linda & Shane Washburn Story

Linda Washburn is a 60 year old woman who suffers from serious heart conditions and fibromyalgia. She has been a caretaker most of her life. For the past 33 years she has taken care of her son, Shane. Shane was born with brain cancer and has been blind and wheelchair bound ever since.

Linda has done her best to keep up with the needs in her home. She has had friends and family help her as they can, but her home needs repairs and she has no resources to

make this happen. She has no vehicle because of the tight budget and gets out of the house once a week to go grocery shopping.

Currently, the Washburn residence needs the bathroom completed, an air conditioning condenser unit replacement, an exterior door and wheelchair ramps installed for mobility. Shane is in a lot of pain continuously and his family and nurses have no wheelchair ramps to get him in and out of the house.

Builders Care, along with Board members, BIA members and volunteers, are working to make things safer and healthier for Linda and Shane.
